

# COVID-19 Testing Now Available

- RT-PCR test validated and offered pursuant to the FDA's EUA
- Results available within 24-48 hours of sample receipt
- 3 test options available

## AccessDx COVID-19 Testing

COVID-19, otherwise known as the novel coronavirus, has created a global pandemic with a high rate of transmission. Speed and certainty of detection within patient populations are key to identifying and isolating potential outbreaks and enabling employees to provide business continuity services.

The **AccessDx COVID-19** diagnostic test quickly identifies pathogens including SARS-CoV-2 (COVID-19) so effective actions can begin sooner. AccessDx offers a high-quality clinical-grade RT-PCR test that has been made available pursuant to the FDA's Emergency Use Authorization (EUA) for diagnostic testing in CLIA-certified laboratories.

## Multiple Options Available

AccessDx offers three COVID-19 test options to best suit the needs of patients, care providers, and critical workforce members:

**COVID-19 Express Test** – Fast, cost-effective, high quality clinical diagnostics.

**COVID-19 Critical Care Reservation** – **Guaranteed** same-day swab kits and 24-48 hour turnaround for mission-critical samples.

**COVID-19+RPP Advanced Test** – Identifies COVID-19 infections along with 26 additional viral and bacterial respiratory pathogens (below)

### Viruses

- Adenovirus
- Human Bocavirus
- Human Coronavirus 229E, HKU1, NL63, OC43
- Human Enterovirus D68, (pan assay)
- Human Metapneumovirus (hMPV)
- Human Parainfluenza virus 1,2,3,4
- Human Respiratory Syncytial Virus A (RSVA)
- Human Respiratory Syncytial Virus B (RSVB)
- Human Rhinovirus 1/2, 2/2
- Human herpesvirus 3 (HHV3 – Varicella Zoster Virus)

- Human herpesvirus 4 (HHV4 - Epstein-Barr Virus)
- Human herpesvirus 5 (HHV5 - Cytomegalovirus)
- Human herpesvirus 6 (HHV6)
- Influenza A
- Influenza A/H1-2009
- Influenza A/H3
- Influenza B

### Bacteria

- Bordetella bronchiseptica/parapertussis/pertussis
- Bordetella pertussis
- Chlamydomphila pneumoniae
- Haemophilus influenzae
- Klebsiella pneumoniae
- Legionella pneumophila
- Mycoplasma pneumoniae
- Staphylococcus aureus
- Streptococcus pneumoniae

## Customized Clinical and Telemedicine Workflows Available

AccessDx's dedicated lab operations and client success teams are ready to help serve the needs of your group. In addition to standard lab data integrations, AccessDx telemedicine partners can evaluate symptomatic employees and facilitate rapid diagnostic testing as necessary.

## AccessDx COVID-19 Fast Facts

**Methodology:** Advanced RT-PCR

**Equipment:** Applied Biosystems/ThermoFisher Scientific

**Collection Process:** Nasal (NP) or Oral (OP) swab, provided by AccessDx

**Turnaround Time:** 24-48 business hours from lab receipt

**Lab Throughput:** 10,000 samples/day (potential)

**Reimbursement:** Yes - varies with product
